Crash takes Turcotte out of the Main during Hayward Powersports 300

March 6-7, 2010- **Hayward, Wisconsin**

Saturday-

Great weather made for a fantastic event, as the BOSS team prepared for the Pro Stock events. Pro Stock heat races left Brett with a fifth and eight respectively, placing him in the LCQ for main event qualifying. Turcotte advanced to the main with his third place finish in the LCQ heat race, setting him poorly on the line for the Pro Stock final. With a chaotic pile up in turn one, Turcotte emerged from the hole in last place and fought an intense battle passing 8 riders in the following 20 laps to finish a hard fought sixth place.

Sunday -

Another spectacular day for crowds and weather, Turcotte was looking to redeem himself for the previous day's misfortune. With a second and a first place finish in his heat races, Brett once again entered a Main event as the top qualifier. During the Pro Open main, Brett had a great start, dove into the mayhem of turn one, colliding with another sled resulting in a bent steering arm which forced his early withdrawal from the race. Brett fared well with no injuries, and is looking forward the season's grand finale in Lake Geneva.

Upcoming Events:

Nielsen Enterprises Grand Finale, Geneva Resort, Lake Geneva, WI,
March 19-21, 2010
