Winnipeg, Manitoba November 17, 2011

Team Jimmy John's/ Ski-Doo/BOSS Racing announces the signing of Boyesen Engineering to its roster of impressive companies supporting the team on the ISOC AMSOIL Championship Snocross Series this season.

Boyesen Engineering offers the most advanced intake innovations available for two-stroke engines. The company's Power Reeds, Pro Series Reeds, Rad Valves and other unique products add performance and value to the motorcycle, snowmobile, watercraft and outboard marine industries. At Boyesen R&D is hands on, and Team Jimmy John's will be an integral part of providing feedback to the company regarding performance in two-stroke snowmobiles.

"Boyesen's reputation is second to none in intake innovation and application —and they are committed to ongoing development. Its precisely why we integrate their products and their expertise into our sled setup. With Boyesen we see a dramatic improvement in throttle performance and air flow, which delivers powerful acceleration— particularly in our mod motors. In our sport, so much happens at the line and we won't take any chances. We integrate Boyesen technology to increase our ability to take the holeshoot and maintain a front running position."— Garry Querel

To learn more about Boyesen Engineering and the products they manufacture for your snowmobile, please visit their website at www.boyesen.com.

We encourage you to buy from the best. Our sponsor's products are tested in the toughest snowmobile competitions the world can throw at us. In racing every detail counts; nothing is left to chance.
